PRESIDENT: Read the amendment to the amendment, Mr. Clerk.

CLERK: It would amend LB 965, in line two, strike one hundred and insert million.

SENATOR KELLY: That didn't help much.

PRESIDENT: No, it doesn't. Have you all voted? Record.

CLERK: 26 ayes, 0 nays, Mr. President, on the adoption of Senator Lewis' amendment.

PRESIDENT: It's adopted. Senator Frank Lewis calls for the previous question. Do I see five seconds? I do. The question is shall debate now cease. Record your vote. Have you voted? Record.

CLERK: 27 ayes, 2 nays, Mr. President, to cease debate.

PRESIDENT: Debate ceases. Senator Schmit or Senator Simon or Senator Lewis. Who is going to close? Senator Simon.

SENATOR SIMON: Mr. President, I want to make one or two remarks and then I want to yield some of my time to Senator Warner. Let me explain in case there is any confusion on what we have done so that you all understand what we're voting on. We've taken the dummy bill, 965, which had a hundred dollars. We obviously knew that was not going to be the correct figure and by adding the Lewis amendment to the amendment we struck that figure of a hundred dollars and made it one million dollars. Now the other portion which was my amendment, the Simon-Schmit, or the Simon-Lewis-Schmit amendment says that we will have \$1,000,000 appropriated for flood control use to take care of such things as dike maintenance, dike repair, etc. It will not be limited to merely dikes, but it is for flood control. Now, Senator Warner, do you want some of my time, Senator Warner? I think Senator Warner wanted about a minute or two of my time so, Mr. President, I would like to close in my last minute but I will yield a minute or two of my time to Senator Warner. Do you need it, Senator Warner? Senator Warner, do you want to use any of my time?

SENATOR WARNER: Yes, if I will. What the amendment now does the way it is written, it puts in at this point \$1,000,000 into 965. At some later date, I assume it still will have to be amended to take care of the other emergency problems so we'll hold it on Select File after we adopt the amendment. The amendment is restricted to the \$1,000,000 to be used for flood control out of the Governor's emergency fund, in cooperation with the Natural Resource Districts. It is not involved at all, Senator Kremer, in the Resource Development Fund the way it is written and the other thing then you should be sure you understand is that all of the provisions of law of the Emergency Disaster Fund will be applicable to this \$1,000,000 for the dike repair which will have those things that you've all heard of the requirement the equivalent of one mill levy of effort and all those kinds of conditions. So I think this meets, the way it is drafted, meets the issue that at least some of you were discussing and if it is adopted I assume we could then read 953.

PRESIDENT: Senator Warner. Senator Warner, Senator Kelly has a technical inquiry. Could you respond to Senator Kelly, please?

SENATOR WARNER: All right.
